invalid of Seven Years Cured by Hood's Sarsaparilla.

"I had a severe catarrhal trouble, and was under medical treatment in several places with little benefit, and at great exuse. I became reduced in flesh, so I weighed only 96 pounds. I had such severe pains in my head that I feared I should become jusane. I tried external remedies without obtaining relief. Finally I was inspired to give Hood's Sarsaparilla a trial, and I am very grateful to the proprietors of this wonderful medteine. I have taken seven bottles and it has cured me, after I had been an invalid lor seven years. I have gained 28 pounds in flesh, and my friends are surprised at the improvement in my condition." Have you earache, toothache, sore throat, pains or swellings of any sort? A few ap-plications of Dr. Thomas' Eclectric Oil will ing relief almost instantly.

Admirals Sampson and Schley have engaged to contribute to The Century's new war series, which will include articles by nearly all of the leading officers of the army and navy. Admiral Sampson will give an account of the operations of the squadron under his command, with special reference to the hunt for Admiral Cervera's fleet, including the attack on San Juan, Porto Rico, and the maneuvers and plans which resulted in the destruction of the Spanish ships. Admiral Schley will write of the operations of the flying squadron in the search for the Spanish fleet, and his narrative will also represent the part taken by the Brooklyn in the action off Santiago.

SOLDIER LIFE AT MANILLA.

Sergt. Winkler, of Owosso, Describer Scenes of the Tropical City and Relates Army Experiences.

THE TIMES takes pleasure in presenting the two rollowing letters written by Sergt. H. P. Winkler, of the 1st Colo, Vol. Intt. at Manilla. The first letter, to his sister Miss Mary Winkler, under date of August 22d, was received in Owesso, Sept. 26th. The second sent to his mother under date of August 25, was also received in Owosse on the 26th ult.:

The company is all out on out pos garrison duty except half a dozen of us and they are all down to the city, except the first sergeant and cook and myself. I was on guard mount yesterday which the reason I am not out today. We are quartered at present in an old Monastery, which the Monks here tell me, is 300 years old, the largest church in the city is con nected with it. The church is a moder building, being constructed entirely out of iron, it is a fine piece of work. I have been in it to early mass, a couple of times, think I will make a good Catholic in time

Well I suppose you will want to know what kind of a time we had getting in here! Well it was a picnic. Our entire loss was seven killed and thirty wounded; no one killed in our regiment, but two or three wounded. We left camp at 6 a. m. on the 13th, went out two miles to where the Utah battery were entrenched. At 10 they and also Dewey opened fire. In about twenty minutes our 1st battalion went over our entrenchment and started for the Spanish lines, we followed in about five minutes the 3rd battalion following us in a short time. In fifty minutes from the time the first gun was fired the American flag was on the outer fort, and put there by the Colorado regiment; there was no further fighting to speak of, they ran up the white flag on their inner works in a short time. I haven't learned what the Spanish losse were during the skirmish, but from what I hear it was about fifty, I saw a few in the first fort we took. The fort was a solid stone building, but the shells that Dewey and Utah threw in there tore it up pretty badly. We got 8,000 prisoners and any amount of ammunition and small arms and about 300 cannons. The ground that we had to march over between our lines and theirs was a swamp with a river through it. The river was only about ten rods wide and up to our middle, but quite swift. It was only a mile of swamp, but we were a little tired when we got through as the mud was over our knees most of the way and we carried 200 rounds of ammunition, which gets rather heavy, we packed nothing else but canteen and rubber pouches. Say! We have got the hottest kind of a band, they followed our company and while they were wading the river they were playing "There will be a hot time in Manilla." The bullets were pretty thick but they never missed a

The Minnesota troops were on the right and supported the Astor battery. They got scared and retreated and the Astor's lost two of their cannons, but the Philadelphia boys came up and got them back. The Minnesota's loss was two killed and quite a number wounded; the Astor's had two killed; the 18th regiment also lost a couple.

day to have killed half of us, but they shot high. I am a little disappointed. I expected to see something of a fight but it didn't amount to as much as our scrap with them two weeks ago last Monday. I think I told you about it in my other letter. I have heard since that they lost about 300 that night. They can credit most of that to G Co., as they made the attack on us and came out in an opening where we had a has a magic touch in cases of dyspepsia. show at them. Our man that was shot and by enriching the blood it tones and show at them. Our man that was shot in the leg that night is out with us again. We have had another one shot in the leg by one of our own boys on Cassaok out post, he is not doing very well, the chances are he will loose his leg, if not his life.

Well I will try and finish, just got back from supper, had hash, rice, hardtack, sugar and coffee, not a great variety, but enough of what there was, which is more then we can say somtimes.

It is awfully warm here this evening. I actually dread to see night come, as the misquitos are so bad. I can't teli you much about the city as I haven't been around much. I intended to go today but as I was up all night as sergeant of the guard and I had to get a little sleep. The Top sergeant and I started after dinner but changed our mind as it was so hot.

There is a population of about 280,000, 50,000 being Chinese, the balance being natives, except a few English, German and French; the buildings are mostly two story on account of earthquakes; they have electric lights, horse car lines, water works, and a great many American improvements, still I can give you no description of the city as there is just as much difference between it and an American city as you can imagine. By the time I write again I may

he able to tell more about it. Some think we will be on our way home in a couple of weeks, but I don't think it will be that soon, as they are to give us quarters in barra ks; I hear that we change quarters tomorrow, I hope so, as there are no accomodations here where we are.

Well I will have to close as it is time for retreat. I expect you will have to pay the postage on this as we have no stamps here yet. Would have written before but have been waiting for stamps, but thought 1 would wait no longer.

It is awful hot today, and looks a little like rain. I hope it does. This is the rainy season, but have had no rain to speak of for several days. While we were living in tents it never missed a day, was more or less wet most of the time, but it didn't seem to burt me any, haven't had a sick day since I have been here.

There were about a dozen out of our Co.

on the sick roll this morning but nothing serious was the matter. I guess the most of them and sore feet, caused by mosquito bites, and they scratched them till they were raw, and that is a bad thing down here, on account of the humid atmosphere. One of our pays who was shot through the leg by the Spanish on the 2d of August, has been been with the Co. for ten days; another one who was shot in the leg by one of our own boys, on the 8th inst., is doing well, but as he was shot with a Springfield

rifle it makes it worse. The Mauser ritles used by the Spanish were not particularly dangerous unless they strike in a vital spot. Their ball is about the same caliber as a 22 but an inch long; they make a very small hole, and if they hit a bone it just makes a gimlet hole, doesn't shatter the bone at all, but just the same I wasn't anxious for any of them to hit me, plenty of them were close enough to suit me. I generally treated them very politely by bowing my head to them if they were very close, at least at first I did but I got a little used to them. You bet I will not forget the first one which sang to me; I not only bowed my head but prostrated myself on the ground as flat as possible, then tried to stretch out to get lower, but then I wasn't any worse than the fellow who was with me. I will tell you about our scraps

when I get home. I thought we would be home soon, by Christmas at least, but, by the way, it looks now as though it will be some time yet, as all our transports are going back empty. I think some are gone now. The captain of the ship we came on says he goes Saturday after provisions, clothes and troops. We have 15,000 men here now. I can't see what they want of more, unless they expect trouble with some other nation, which I don't think we will. If Germany interferes we can give her a warm reception right now. Our boys and the German sailors here get along finely, at least they drink plenty of beer together. There are four German battle ships here at present, also a couple of English and Japanese, but Dewey is boss now.

There was some trouble at Cavite last night between some of the insurgents and our boys. We had orders to be prepared to turn out at any minute, but were not called out. I havn't been able so far to find out what was the row. If the natives kick up a row with us we intend to wipe them off the earth, as they are a treacherous set.

I am learning Spanish a little but it is like Chinese to me, but guess I will get it if I stay long enough. But to talk with the natives you have to talk Tegal, also, and that is worse than the Chinese. I want to make a trip up the country one of these days if I can, but it is a hard job to get away for more than a day. The muster roll just came in to be made

out for two months pay. We were paid up till the 1st of July, on the 8th of June. still have a few dollars of it, so have had a little money to use all along. I expect there will be a hot time here after pay day. as what the boys draw will amount to over \$60 in the money in use here. The ma-jority of the boys were broke before we left Frisco, so have had kind of a hard time. especially if they chew tobacco, as they have to buy it and pay cash, as there is no allowance. We were issued white duck suits Sunday, and look quite nobby now, but don't expect we will very long, as they will soon be dirty.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is

manufactured by scientific processes known to the California Fig Syrup On only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the California Fig Syrup Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALI-FORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives. as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of

Opinion of an Emment Jurist. Ballot reform in New York was nece sary, says an embent jurist, because mere politicians by trade, who had no interest in government or politics except to enrich and aggrandize them-eives, sought perpetual control. There are other excellent reforms peside that of the ballot. Conspicuous among them is the reform in a disordered physical system by Hostetter's Stomach Bitters, which counteracts tendencies to serious disease bred by a deficiency of vital stamina, irregularity of the bowels, stomach, liver or kidneys, and inquietude of the nerves This sterling medicine, which has for near-ly half a century won popular favor, not only for its excellent qualities in a remedial capacity, but also for its serviceable properties as a medicinal stimulant.

A gentleman speaking of the politica situation yesterday, said: "I hear of no republicans who are not enthusiastically supporting J. W. Fordney, but if it was prudent. I could give you a long list of democrats who voted for Mr. Brucker two years ago, but who have seen their folly and repented of it. This talk about the old soldiers supporting Brucker is all bosh. Many of them feel just as one of them expressed himself the other day, when he said, 'I have always been a democrat, but at last I have discovered that the only party which has always been friendly to the old soldiers is the republican party, and I have voted my last democratic ticket. - Saginaw Courier-Herald.
